Hi Jeff and Allison,

I think the statement looks good.

Thank you,
Jenny

How about this slightly edited version ...

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake in northeast Juneau County, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will analyze the results and coordinate further with Wisconsin DNR to determine appropriate next steps.

Thanks Dean. Allison, please see statement below revised to incorporate Dean's comment.

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake in Northeast Juneau County, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will be coordinating further with Wisconsin DNR and analyzing the results to determine if an environmental problem subject to EPA authority exists and the appropriate next steps.

I added information about coordination with Wisconsin DNR. How does this look?

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake in Northwest Juneau County, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will be coordinating further with Wisconsin DNR and analyzing the results to determine if an environmental problem subject to EPA authority exists and the appropriate next steps.

Linda,
Does this look okay as revised to refer to Northwest Juneau County, Wisconsin as opposed to Nekoosa?

Please review the draft statement and send me any edits. We will continue to notify impacted residents of their sampling results, right?

DRAFT desk statement – Central Sands Dairy sampling results

On April 30 through May 2, EPA sampled groundwater west of Petenwell Lake near Nekoosa, Wisconsin, after receiving complaints of private drinking water well contamination. EPA has received some preliminary sampling data and is notifying property owners of their individual results as they come in. Once a complete data package is received, EPA will analyze the results and determine if an environmental problem subject to EPA authority exists.
